

ACO Clarimar MF 0.5 Modular

Product Catalogue

ACO Clarimar MF 0.5 Modular

ACO Clarimar® MF Sewage Treatment Plants / IMO MEPC 227 (64)

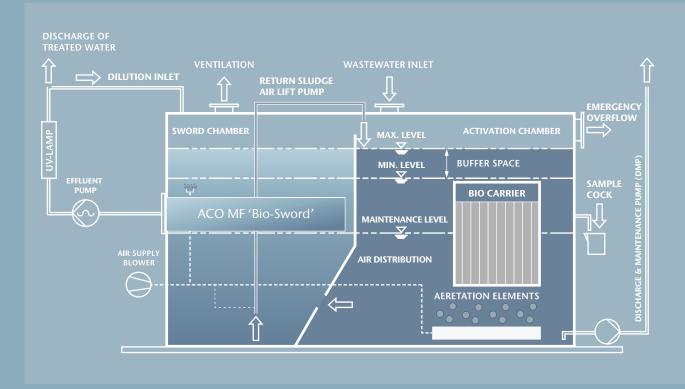

ACO Clarimar MF Modular 'Bio-Sword' Filtration Technology

- The ACO Clarimar MF biological sewage treatment
- Type approved to IMO MEPC 227(64) and EC MED
- Compatible with both gravity and vacuum systems
- Manufactured entirely in the EU from high perfor-
- Flat-Pack available for retrofit and repair installations

- Lowest running costs of any sewage treatment
- Simple automated operation requires minimal
- Smallest footprint biological STP on the market
- Retrofit STP solution can be split into two separate modules optimising available space

 Two blank sides allow installation into a tight
- No painting or surface treatment required

Process Description

Technical Description

The main tank is manufactured entirely within the EU from high performance 'ACO Composite PPFR GREY' material which, unlike coated black steel, is light weight and completely resistant to corrosion, abrasion and chemical attack. Available as standard in grey colour. Clarimar MF 0.5 Modular is delivered divided into two main parts, the "Tank" and the "Technology Unit". Once these two main parts are installed at their location, a few more components and connections are added, however all connections are bolted or screwed

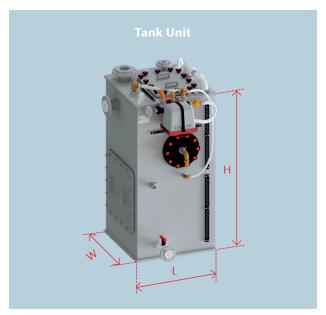

so no welding is required. Our goal has been to provide, as much as possible, a 'plug & play' solution. All Clarimar MF 0.5 installed components are designed to operate, as standard, in the voltage range 380 to 440 volts and at frequencies of either 50 or 60 Hz, without any additional modification. Additional voltage options are also available. Control of the system is via an IP55 rated steel cabinet complete with safety isolator and volt-free contacts for connection to the ship's central monitoring and alarm system.

Typical Customer

- Port and inshore workboats
- Smaller offshore rig crew boats and supply vessels
- Coastal fishing vessels
- Short journey fast catamaran ferries

Clarimar MF 0.5	Hydraulic Load [lits/day]		Overall Dimensions			Weight	
			L	W	Н	Dry	Wet
			[mm]			[kg]	
Tank Unit	1200	0.77	876	1077	1631	170	867
Technology Unit			598	986	1423	92	92

Clarimar MF 0.5 50Hz Acticle Number – 412005M.50* Clarimar MF 0.5 60Hz Acticle Number – 412005M.60*

* Standard article numbers are applicable for version with 1 EP, 1 Blower and 1 DMP, voltages 380-415V/50Hz or 440V/60Hz. Different version – article number on request

Every ACO product supports the ACO WaterCycle

- Marine Drainage
- Vacuum System
- Push Fit Pipe System
- Wastewater Treatment Plants
- Grease Management
- Lint Filter
- Tanks
- Lifting & Transfer Stations
- UV Deodourisation Unit

08/2024 – Subject to alterations
